

Clark Forklift

Performing worldwide, there are now 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in use in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive brands of lift trucks, with parts covering more than 120,000 specialized parts for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your components needs offered by Clark Totalift.

Clark features a exceptional Parts Distribution team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really amazing global support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's continual mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first forklift manufacturer across the world to be certified with the globally approved quality standard ISO 9001 for all of their manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Lean Manufacturing

Clark has preferred the extremely economical and beneficial system of "Lean Manufacturing" for its assembly plants and use of resources. This system was developed to acknowledge the most efficient method of production facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engine Design

By working in concert, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The contemporary value engineering agenda combines progressive product development and offers improved customer support and service within the industry.
